- **PAT margin increased by 82 bps to 5.4%** as against 4.6 % in H1 FY17

Management Comment:

Commenting on this development, **Mr Shashank Agarwal, Joint Managing Director, Salasar Techno Engineering Ltd.** said,

"The second quarter brought with itself a lot of challenges and the biggest of them being the implementation of GST. We are happy to inform that we took these challenges head-on and came out successfully. This is evident from the strong quarterly performance of the company. Our focus on profitable growth along with efforts towards building a sizeable orderbook is yielding results.

This quarter, too, we have delivered strong growth and executed orders across all segments. At the same time, we have witnessed order inflows indicating strong confidence our clients have in our execution capabilities.

We continue to look for growth opportunities and expect strong order inflow to continue driven by Government's capex in infrastructure and investments in electrification of railways. Also, the Smart City initiative gives us another growth opportunity. We continue to improve our operational efficiencies, improve our product portfolio which will result in better performance."

About Salasar Techno Engineering Limited:

Salasar Techno Engineering Ltd. incorporated in 2007 is a provider of customized steel fabrication and infrastructure solutions in India. It provides 360-degree solutions by carrying out engineering, designing, fabrication, galvanization and deployment. Its products include telecommunication towers, power transmission line towers, smart lighting poles, monopoles, guard rails, substation structures, solar module mounting structures and customized galvanized & non-galvanized steel structures.
